

Evolving Asset Management at INDOT

Kevin Munro - INDOT

2:00 - 2:50 pm

Bio:

Kevin has worked for INDOT over half his 30 year career in various GIS related capacities, his most recent as INDOT's Statewide Geospatial Manager in the Office of Asset Management. His first venture with GIS technology was as a consultant, supporting forest sustainability modeling in British Columbia. Kevin lives with his wife and 4 children in Cincinnati, Ohio and enjoys the great outdoors and anything involving motorcycles.

Abstract:

INDOT's assets have an estimated value north of 30 billion dollars, and we invest over a billion a year in improving and preserving our infrastructure. Inventories, conditions and histories are critical to managing our assets as are the technologies, employees and policies that have roles in their governance.
